

North Kimberley Marine Park preliminary coral results from exploratory work 2015-18

43
types of coral

We found 43 coral Genera from 13 coral Families. If we think about corals like cars, Families are the manufacturer (Toyota), Genera are the model (Landcruiser, HiLux, Corolla) and Species is the series (GX, GXL, Sahara).

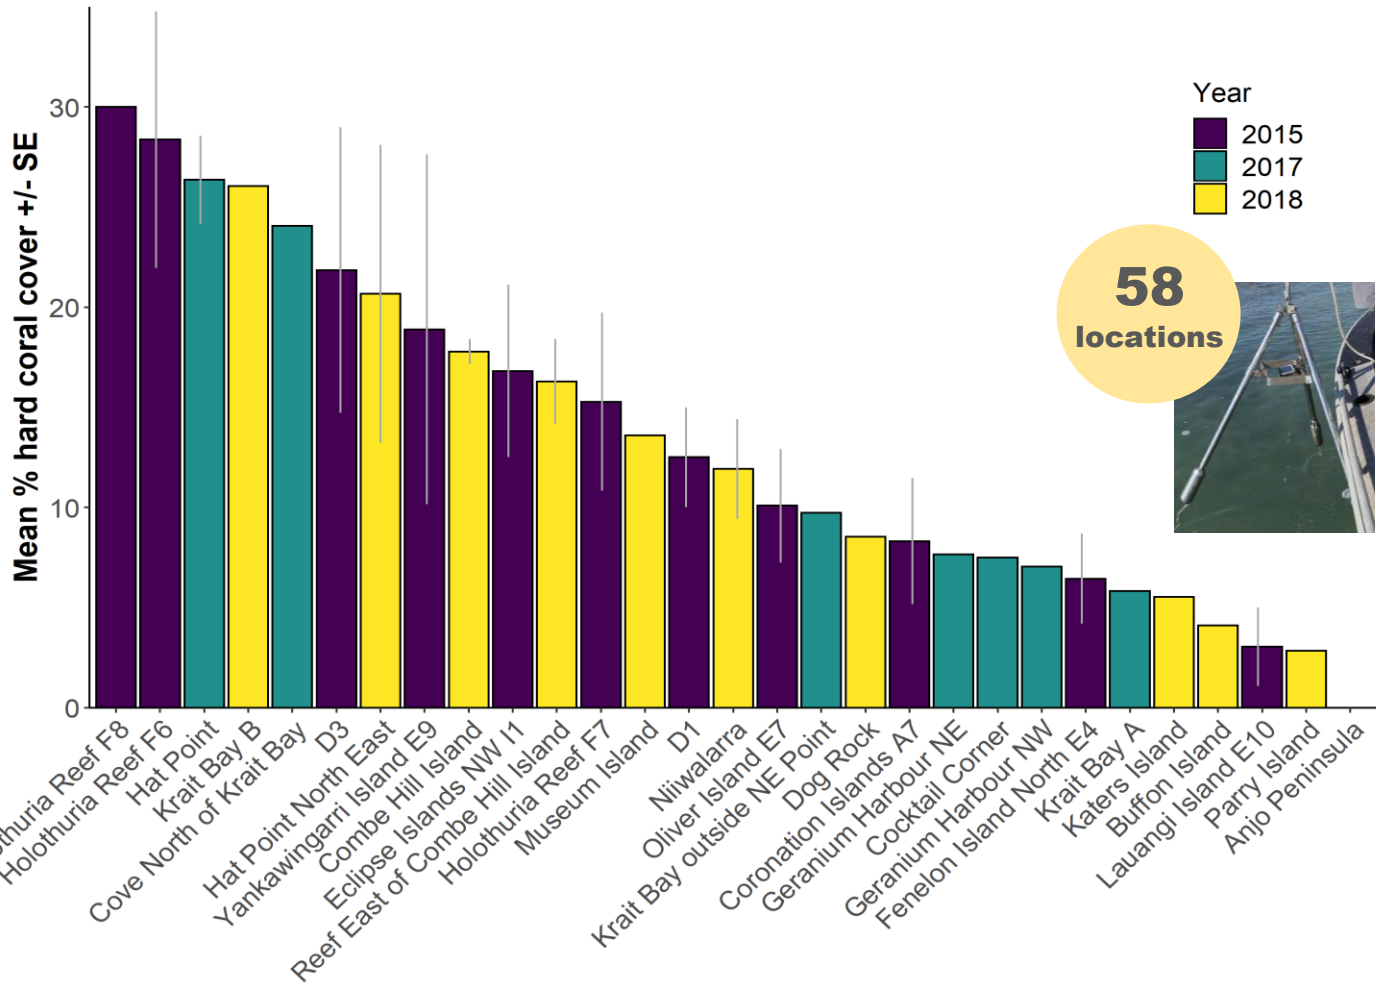

Reef make up

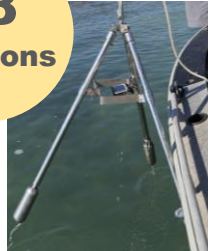

14%
mean coral cover

At the reefs we visited there is an average of 14% hard coral found. The reefs are also made up of macroalgae, seagrass, sponges, shells, turf algae and other invertebrates.
